COUNTY COUNCIL

THURSDAY AFTERNOON.

Council went into committee on the whole on the by-law to abolish county committee rose, reported progress, asked leave to sit again on Friday afternoon.

The county property committee reported recommending payment of various bills. Also with regard to Registrar's application for caretaker, that no action be taken.

First report of road and bridge committee read, recommending as to swing bridge that before any action be taken, further legal advice be had.

Messrs. Carson and Symington moved that the council go into committee on the whole on report. The motion carried and council went into committee. Mr. Warner in the chair.

Mr. Keech addressed the council, setting forth that the town was asking for 50 per cent. of cost of construction. He was not clear in his mind, and the committee was not clear, as to what was the right of Napanee. Further legal advice as to the county's position and liability was needed. But if the town of Napanee were merely asking some assistance, not as a right, the council would undoubtedly act fairly.

On motion, the report was laid on table until Friday. Committee rose, reported and asked leave to sit again.

Mr. Symington called the attention of the council to a case similar to this where arbitration had to be resorted to, and the county came out having to pay 35 per cent. of cost and 55 per cent. of repairs for ten years. He did not think the request of Napanee for 50 per cent. was unfair. The town was prepared, however, to meet the council amicably, and try and settle the matter.

Mr. Keech said if this was the only bridge over 100 feet long in the county, not on a county road the matter might be easily settled, but there were so many long bridges, eight in his own municipality, that the action of the council must be well considered.

On motion of Derbyshire and Dufour the following were appointed a committee to confer with the town council: Messrs. Patterson, Wagar, Babcock, VanSlyck, Martin and Long.

Mr. Babcock handed in a report of the recent sale of county debentures by the finance committee. The following debentures were advertised and sold—No. 24—\$7,700. No. 25—\$3,400. Sold to O'Hara & Co., of Toronto, for the sum of \$18,815. There were a number of other tenders.

The report was received and adopted. This is claimed to be the best sale of debentures yet made on behalf of this county.

The Warden reported having attended a meeting in Kingston to consider a proposition to establish a school of science. He did not see how the scheme was to benefit farmers, but rather for the benefit of Queen's College.

An invitation was extended to the county council by the treasurer and clerk to partake of an oyster supper at Dickens' restaurant. Adopted unanimously.

Moved by Messrs. Martin and VanSlyck that the Reeves report the number of bridges over one hundred feet in their municipalities that are not on county roads, to report on Friday morning.

Mr. Dufour introduced a petition from Mr. Thompson, Richmond, to be allowed to construct a fence near a marsh, close to the roadway, there being a difficulty of construction elsewhere. The prayer of the petition was granted.

The Warden reported having settled the claim of John Furs for \$30.—Adopted.

Mr. Derbyshire reported the Sheriff required a new stove, as the one in use was badly out of repair. On motion the matter was left in the hands of the chairman of county property.

Mr. Derbyshire reported the bridge at Link's Mills, between Robins bridge and this bridge. This year a traction engine was nearly going through, and he was notified of the danger.

He then ordered a new bridge, which cost \$69.03, and the vouchers he now handed in, must

hoping the county council would endorse his action. Referred to road and bridge committee.

Council adjourned for benefit of committees.

During this sitting of the council the Warden purchased tickets for the whole council, the treasurer, the clerk, and the representatives of the press, to attend the Jessie Alexander entertainment.

FRIDAY MORNING.

Council came to order at 10.30. Minutes of Thursday read and confirmed.

An account of Deroche & Madden for \$15.12 was read, and on motion ordered paid.

George Sandford put in account for eight maple trees, \$4.—Referred to county property committee.

Treasurer handed in a statement of accounts paid by municipalities to date:

Camden	\$2000 00
Ernestown	2400 00
Napanee	2000 00
Adolphustown	1677 00
Amherst Island	000 00
North Fredericksburgh	200 00
Denbigh, etc.	230 00
Kaladar, etc.	140 00

Total paid in.....\$1047 26
Balance due, \$27,967.75.

Mr. Dafee handed in first report of Education and Printing committee. Report read. The committee recommended payment of all accounts save one of Jos. Doust, Toronto. Also that the claim of Newburgh High School be reduced by \$206.26. Also that the committee saw no reason for the existence of Newburgh High School, one school being sufficient for the county.

The report was taken up clause by clause in committee of the whole, Mr. Dafee in the chair.

The first clause was adopted recommending that the petition of the counties of Durham and Northumberland for a reduction in the number of county councillors be considered by the council.

Other clauses passed until that relating to Newburgh High School was reached.

Mr. Patterson would like some reason for the reduction in the amount asked.

Mr. Symington said the objection was to \$200 for unforeseen expenditures. This was not a claim. The item for closets was also thrown out, as being uncalled for. The town of Napanee paid all the expenses of this kind, without assistance from the county.

The clause was adopted after discussion.

Mr. Gibson was heard re the account of Jos. Doust, Toronto, for supplies to registry office. He said the account was for goods required, and the county had paid for these supplies hitherto.

On motion the clause with reference to this account was adopted.

The clause with reference to the necessity of Newburgh High School was next considered.

Mr. Symington said the committee were unanimously of opinion about the High School at Newburgh.

Mr. Baker spoke against the clause, and thought a slur was being unnecessarily cast upon the school, which has given valuable service in this county.

Mr. Symington said there was no wish to cast a slur upon the school, but the committee honestly expressed their views. The clause was not adopted.

Committee rose, reported, and Warden resumed the chair.

The report of the committee as amended was adopted.

Adjourned.

FRIDAY AFTERNOON

An account was handed in by the treasurer of Hart & Co's for \$14.95 supplies to registry office.—Paid.

Messrs. Baker and Carson moved that the chairman of finance committee be paid \$10 for extra services re sale of debentures. Carried.

The road and bridge committee handed in a report recommending payment of accounts submitted to them, and that the communication from Whitby re appointment of a referee to consider damage claims on public roads, be filed. The report was adopted.

Moved by Messrs. Lane and Derbyshire that Debigh get the full amount of special grant, \$300, without deducting the 10 per cent which was ordered at June session.

Mr. Lane, in speaking of his motion said he asked for this remission of the 10 per cent on its merits. He was not here to grab any money from the county, nor to beg or crave for favors, or to allow others to do so; but these back townships had roads and had ones, and were now in condition.

Mr. Carson said he sympathized with Debigh because their assessment

and no one here would give that for the property.
The motion was carried.
The Hon. Kaladar was granted same.
A special committee to whom the motion was referred recommended having the matter open until January, and that Hanson Bros. be referred to forward a declaration that their motion was based on the first insertion of advertisement of sale of such debentures.
The sale of debentures was made last week. The advertisement as first inserted was incorrect, but afterwards corrected. Hanson Bros. claim that the mistake which was made in dates of maturing, made a difference of some \$56 in the value of the debentures. Moved by Messrs. Mallory and VanSlyk the two municipalities of Amherst and Adolphustown get a special of \$100 each.
Mr. Patterson spoke to the motion and if special favors were going, he thought Amherst Island should have a share of the motion was lost.
Mr. Carson called the attention of the council to a grant made in June for making a ditch, and making Mr. Madden and Mr. Fairburn responsible for any damages which might arise. Mr. Madden declines to be responsible for anything save damage done by water, and Mr. Fairburn declines responsibility of any kind.
Council went into committee of the whole on the by-law to abandon county roads, Mr. Mallory in the chair.
Messrs. Baker and Dafeo moved that the committee rise, report progress, and ask leave to sit again in January.—Carried.
Mr. Mallory asked for the yeas and nays—Yeas—Baker, Bryden, Babcock, Derbyshire, Dafeo, Ham, Hodge, Keech, Lans, Long, Martin, Miller, Thompson, Symington.
Nays—Carson, Carsonall, Mallory, Patterson, VanSlyk, Wagar.
Mr. Derbyshire, chairman of the county property, submitted pay list as vouched for by him, which was adopted.
The second report of the road and bridge committee, being accounts for construction of Clare River bridge, was put in by Mr. Wagar, and adopted.
Mr. Dafeo brought in pay sheet for township of Richmond, showing purchase of two gravel pits, half of which they asked to be taken out next year's appropriation on county roads.
Mr. Babcock put in second report of finance committee, calling attention of the council to a charge made by the Dominion Bank of 6 per cent. for monies overdrawn, and that 3 per cent. only is allowed on balances in favor of the county, and that the committee had arranged for the payment of the interest monthly.
Council went into committee of the whole to reconsider clause 4 of the first report of the Education and Printing committees. The clause related to an account of Joseph Doust, Toronto, for blanks supplied to the registry office, \$36.80.
A motion to amend the report was lost, and committee rose.
Moved by Messrs. Hodge and H. Meng, that \$1700 be added to \$300 already paid, to assist town of Napanee in construction of swing bridge.
Messrs. Keech and Martin moved in amendment that action in the matter of the swing bridge be deferred until the January session.
Messrs. Baker and Thompson moved an amendment to the amendment that the words \$1700 be struck out and \$1200 inserted.
Mr. Symington said he wanted this council to deal as liberally with the town as they could. He would vote for the highest amount the council were willing to offer, but that would not bind his action with regard to Napanee council.
Mr. Carson followed in the same strain, and explained that Napanee had dealt liberally with every municipality.
Mr. Derbyshire complained that the town of Napanee had gone into luxuries, and

municipalities should in the meantime pay up the sums due. After some discussion the motion was withdrawn.
The minutes were read and confirmed, and council adjourned.

THE PROTEST.

To the Editor of the Express.
Sir,—You are doubtless aware that the Reform party of Lennox are very much surprised and dissatisfied with the result of the protest in our last Dominion election. They feel that there is something wrong. They fear they have been deceived by those who had the conduct of the protest in behalf of our party. While the protest was being protested they were told that there was plenty of evidence to upset the election in fact there was no doubt the election would be upset but further, Mr. Uriah Wilson, the tory candidate would be disqualified. Such reports were sent out by those deep in the secrets of the party. We were satisfied and waited patiently for the final result. Mr. Editor, how dreadfully have the confiding Reformers of Lennox been duped and I can assure you that they feel correspondingly sore and from what I hear are determined to have the affair sifted to the bottom. Now, Mr. Editor, you are the representative of the only Reform paper in the county through whose columns they expect an explanation to come to the people. The party think you are the proper person to go to those who are responsible for the miserable settlement and demand a full explanation. Look over what evidence was produced in the case and get such an explanation as those having the matter in charge see fit to give, in fact demand all the facts, and after getting them give them to your readers through the columns of the Express and until you do this we think a grave responsibility rests upon your shoulders. There are very grave suspicions in the minds of our people that the whole protest business was a fake, got up for the purposes of deceiving us, salting the other party, and lining the pockets of certain persons in both parties. If this is a fact we want to know it and until you make an effort to ferret the matter in our behalf, we shall certainly think you very indifferent to the political interests of the reformers of Lennox, the people who are the readers of your paper. We would like to know if there was sufficient evidence produced in support of the protest to annul the election of Mr. Wilson. We want to know if an offer was made to Mr. Wilson at Ottawa to call off the protest upon his paying over to certain parties \$1100. We want to know how it was that Mr. Preston was so indifferent in regard to having Mr. Wilson's costs paid after the lawyers admitted they had no evidence in the case. We also want to know who the man was in the west whose election was secured to him through withdrawing the protest in Lennox. I shall put no more questions at present but if I am not mistaken there may be some other pertinent questions asked by parties who know much more about the whole miserable affair than the writer of this letter. Suffice it to say that if we have traitors in our Reform Association, we want to know it so that we may get rid of them. Hoping that the whole facts may appear in the Express, I will remain

WEST PLAIN.

Hello Mr. Editor: Where are you going on Christmas day? I am going to look for New Year's day.
Rumor says two weddings for Christmas. I can't say for certain as I am not in it. Our sleighing is gone again. I guess it has gone to look for Christmas.
The social held here on Friday evening was a success, financially and otherwise. Last year's failure was overcome and we now rank No 1 again. The fish pond, which was got up by the teacher was a success. It was very entertaining and amusing and a neat little sum was realized from it.
The programme, which reflects great credit on those who took part in it.

will be willing to give something he thought \$1,700 was too much.

Mr. Mallory said if the elections were not just on, maybe the town would get something fair, and the county roads would be abolished.

Mr. Baker's amendment was lost on a show of hands.

Mr. Keech's amendment was lost on a show of hands.

The motion was put and lost on a show of hands.

The ayes and nays were asked for. Yeas—Brydon, Carson, Carscallen, Dafeo, Ham, Hodge, Lane, Long, Meng, Symington.—10. Nays—Baker, Babcock, Derbyshire, Keech, Mallory, Martin, Miller, Patterson, Thompson, VanSlyck, Wagar.—11.

Messrs. Keech and Martin moved that action re swing bridge be deferred until the January session.—Carried.

The report of the road and bridge committee that the liability of the county being in doubt with regard to the swing bridge, further legal opinion be obtained.—Refer back to road and bridge committee to amend.

Adjourned.

SATURDAY MORNING.

Council came to order at 9.15. Minutes of previous meeting read and confirmed.

An account of Carscallen Bros. for burying vagrant who died in gaol, \$10.50.—Paid.

The road and bridge committee presented their fourth report dealing with the road returns and recommending payment for services and travel re the swing bridge in Napanee.—Adopted.

Second report county property committee read, recommending payment of accounts submitted.—Adopted.

Moved by Messrs. Thompson and Baker that the report of Education and Printing be reconsidered.—Carried.

Council went into committee of whole Mr. Dafeo in the chair. The report was referred back to the committee.

On motion the county clerk and the county treasurer were each allowed \$10 for making out the list of fines improperly remitted.

The Warden was notified this morning of the appointment by the town of an arbitrator re the swing bridge. His Honor Judge Wilkinson was named as arbitrator for the town.

Mr. Baker made a motion to suspend rules for the purpose of passing a by-law to appoint an arbitrator for the county.

Mr. Keech, speaking to the motion said he did not think the town of Napanee would unduly hurry this matter, and he was in favor of taking time to consider who should be arbitrator, supposing it was found necessary to appoint one. He thought the matter could be laid over until January.

Mr. Derbyshire said he thought the county council would deal justly with the town of Napanee, and was in favor of leaving the whole matter to be settled amicably at the January session. The general feeling of the council was in favor of doing right by the town.

The motion to suspend rules to appoint an arbitrator was lost.

A vote of thanks was tendered Mr. Carson for assistance rendered the chairman of county property, and in looking after the interests of the county.

The education and printing committee brought in their report recommending payment of equivalent to Government grant to both Napanee and Newburgh High Schools.

Moved by Messrs. Keech and Carson that the Warden now leave the chair and Mr. Derbyshire take the same.

On motion a vote of thanks was tendered the Warden for the able and impartial manner in which he has filled the chair.

A standing vote was taken, when every councillor rose with alacrity to his feet, and gave the Warden a rousing round of applause.

The Warden replied, regretting severing his connection with the county council, and saying that the present session, and all the sessions of 1892 had been very harmonious. He thanked them for their good feelings towards him, and was pleased to know his efforts to impartially preside over their deliberations had been appreciated.

A vote was taken on the question of reducing the number of county councillors, and all were in favor of such action.

A motion was made to authorize the treasurer to overdraw at the Dominion

U. S. CENSUS.

To the Editor of the Express.

Dear Sir:—I read in one of your recent issues an article headed "One Million Canadians in the United States," purporting to be a report furnished by the Census department at Washington to Mr. E. Wyman. In accepting this report as truthful we must not close our eyes to the fact that the aforementioned report has a different meaning to that which should be attached to it by citizens of Canada. To the United States it means the actual number of immigrants arriving in that country from Canada and all children born to these Canadians, are accounted American citizens and in no case are these children accredited to us. These children, if computed at the average rate of increase shown by the statistics of the United States at 25 per cent each decade would represent for ten years alone, 245,410 persons. We know that 717,147 persons went to the United States between 1870 and 1880, and as a consequence would now have been residents for nearly twenty years. We will then be free from any charge of extravagance if we confine our estimate to a period covering only ten years. Mr. Wyman's report, then, would make for us a total of at least 1,226,151 souls, who, under a tolerable regime would gladly have been sons and daughters of a prosperous Canada had not fate (there was no statesmanship in it) ruled otherwise.

glorious success as to programme, finance and to the crowd of good looking, sensible people who thronged the church to overflowing until the seats of private houses and the Orange hall were called into requisition and "Maple Avenue" became a "travelling furniture shop." The weather, not over propitious during the day and less so as the shades of night drew on, prevented many more from being present. They knew that from the mention of the names upon the programme that they might as well miss the "World's fair at Chicago" as this treat. In a grand fluent, lucid manner of speech the Rev. H. L. Allen portrayed the aims and objects of this order. He holds the honorable position of Grand Prelate of the Grand Lodge at Hamilton for the last four years. The remark was current and frequent that he was a genial, jovial minister whose religion agreed with him and he must have thousands of friends where his lot has been cast at different times. Lodge No. 124 of this place extends to him their sincere thanks in helping on the entertainment and to all who aided in the programme; to the trustee board of the C. M. Church who flung open their doors to us and especially to Mrs. Roney and Mrs. Dunlap to whose exertions the success of the affair is due. Words are inadequate to express the pleasure afforded the crowd by listening to the able readers and only angels could equal the melodious strains of heavenly music that filled the air.

Miss Burrows has a large class of pupils here, who owing to her thorough instruction are making marked and rapid improvement. The assistance at all our entertainments, mostly in the way of accompaniments for her pupils shows kindness of heart and the interest for the pupil.

We more than regret the departure from our midst of our efficient, energetic teacher, Mr. E. Knight, whose manly upright course has won the hearts of children, parents and people. We look forward to seeing him successful in life and don't believe we'll be disappointed. Odessa, you are to be congratulated upon the acquisition to your staff of teachers of so noble a young man.

A quiet wedding took place Wednesday evening at the C. M. parsonage, Newburgh. Mr. Archie Bruton, clerk at Mr. H. J. W. Haynes' new store and Miss Minnie Ferris were married in the most sensible way by going to the minister's house. That's the way I'm going to do it Mr. Editor. Good luck and a long life to both.

Rev. Mr. Limbert, of Odessa, preached the annual missionary sermon on Sunday last.

ODESSA.

Having learned that the Warden had been served with a writ calling on this county to show reason why it should not support the waif, Miss Clow, placed in Toronto House of Industry at Kingston expense, we interviewed the father of the child, who states that the girl was born in the township of Bastard, near the village of Newboro, in the county of Leeds. The girl has never lived in Ernestown for any length of time having been placed in the home at Kingston when a little child.

The indications point to a rousing success for the Forester's concert on the evening of Thursday Dec. 22nd. Dr. Oronhyatekha, S. C. R. and Mr. George Fax, of Belleville, will assist in the entertainment.

A daring instance of petty thieving was perpetrated here last week. John Beverly, a widower, residing on Cross st., got up in the morning and having occasion to go out for a few minutes returned to find himself poorer to the extent of a gold watch and chain valued at \$40. There is no clue to the thief.

We extend congratulations to R. J. Cartwright Parrott on his marriage to Miss Etta Perry of Thorpe. The happy couple have left on a bridal tour to Toronto, Niagara Falls and Rochester.

A happy event was the farewell oyster supper tendered to Mr. W. Dougherty the genial manager of Odessa cheese factory on the occasion of his leaving to spend the winter holidays at his home. The event took place last Thursday at the Royal Hotel and about 45 partook of the elegant spread prepared by Mr. and Mrs. Bennett. S. D. Clark, the veteran cheese man presided at the head of the table and for an hour or two, fun and wit reigned supreme. Mr. Dougherty is deservedly popular.

John K. Booth and daughter have left for Spokane, Washington Territory.

J. Irish, of Grey County, is renewing old acquaintances.

The matter of abolishing the county roads, laid over till the January session of County Council, is one of importance and calls for active intelligent interest on the part of the ratepayers. Ernestown has 35 miles of road that is maintained by the county and the electorate should be sufficiently well informed to instruct their representatives as to the proper course of action in the matter. What is the object attained by the abolition? Where is the difference in paying the money necessary to sustain these roads to townships instead of to the county Treasurer. Is there not an equalization in the amount paid by each municipality? These and other questions are to be met and answered ere the people are supposed to act intelligently in the matter.

Electricity, as applied by the Owen Electric Belt, is now recognized as the greatest boon offered to suffering humanity. NAPANEE, FRIDAY, DEC. 16, 1892.

It is quite refreshing in these boodling bungling times to have the pleasure of recording now and then a straightforward honest deal in the handling of public funds. Those who have witnessed the slight-of-hand performances regime of the Tories while they had control of the affairs of the county must now form a queer opinion of their methods. Deputy-reeve Babcock, of Ernestown, has no seances at the opening of the tenders for debentures. He goes at the matter in a business-like way. Having no axe of his own to grind his only aim seems to be to serve the people whom he represents and he has done that in a manner creditable to himself and profitable to the county. The last sale of county debentures was the best ever made in the history of the county. For \$15,900 in debentures the committee realized \$18,815. The highest figure ever reached before was a sale at a premium of 13. Together with Mr. Babcock, the chairman of the committee, no small amount of the credit for this clever piece of financing is due to his associates on the Finance Committee Messrs. Martin, VanSlyke, Carson and Thompson.

THE NAPANEE CREAMERY.

A Description of an Industry Which is of Great Interest to the Farmers of this Community.

Since the visit of the representatives from the Agricultural College with the travelling dairy, in October, great interest has been centred on the dairy industry. Mr. Ogden Hinch, who occupied the chair on that occasion, stated that if he could be assured of the patronage necessary, he would equip his Napanee cheese factory as a creamery. Steps were taken for the establishment of a creamery, after a meeting had been held, addressed by Prof. Palmer, and the merits of the creamery had been fully explained. The apparatus was ordered and placed in position, and the new industry is now in operation. Last week our representative was driven to the creamery and shown through by Mr. Hinch, and we will furnish our readers with a description of the process of butter making in a creamery.

The size of the entire building is 70x35 feet, with an attachment 24 feet square for a boiler and engine room and 15 x 25 for a receiving shed. The boiler is a 15 horse power, which is necessary, as much steam is used for regulating temperatures. The engine is a 10 horse power upright, and is most complete. Off the engine room is the making room, which is 30x35 ft and in this compartment is all the working apparatus. Passing through a door from the making room we enter the storing room, 35 feet square. When the milk is brought each can is weighed and the contents are strained through a double-thick cloth into a receiving tank of 6000 lbs. capacity. The milk is all taken in on the Babcock test and each patron credited with the percentage of butter fat contained in the milk. The justice of this course will be readily seen, when we state that the percentage of butter fat in the different samples varies from 3 1/2 to 6 per cent. When there is a large quantity of milk in the tank steam is turned on and the temperature raised to 84°. Attached to the tank is a faucet, and underneath is the separator. The separator is one of the most complete pieces of mechanism we have seen. It has the appearance of a small sized ship capstan, as it only stands about 3 feet high. It is the Alexandra No. 1. Inside is placed a cast steel ball weighing about 100 lbs., which is hollow inside, and is about half an inch thick. This ball revolves at the rate of 6000 revolutions per minute, and this speed, which takes fifteen minutes to attain must be secured before the milk is allowed to enter the separator. The machine is so complete that the speed is ascertained by a gong which is struck every hundred revolutions. When the proper speed is attained the faucet is opened and the milk is run into the separator, where the cream is entirely separated from the milk. Attached to the separator are two nickel plated pipes, one to carry off the cream and the other for the skimmed milk. The capacity of the separator is 2500 lbs of fresh milk per hour, and discharges a large cream

has utterly failed to afford relief in rheumatic cases. We venture the assertion that although Electricity has only been in use as a remedial agent for a few years, it has cured more cases of Rheumatism than all other means combined. Some of our leading physicians, recognizing this fact, are availing themselves of this most potent of nature's forces.

TO RESTORE MANHOOD

Thousands of people suffer from a variety of nervous diseases, such as Seminal Weakness, Impotency, Lost Manhood, Weak Back, etc., that the old modes of treatment fail to cure. There is a loss of nerve force or power that cannot be restored by medical treatment, and any doctor who would try to accomplish this by any kind of drugs is practising a dangerous form of charlatanism. Properly treated

THESE DISEASES CAN BE CURED

Electricity, as applied by the Owen Electric Belt and Suspensory, will most assuredly do so. It is the only known remedial agent that will supply what is lacking, namely, nerve force or power, impart tone and vigor to the organs and arouse to healthy action the whole nervous system.

tank under the receiving tank, and of the same capacity. The operator turns a steam tap and sets an ejector in motion, which conveys the skimmed milk to a large elevated tank on the south side of the building. This tank has a plate glass side, and a section for figures. From this tank there is a rubber hose passing to the outside, through which the customer draws his proportion of skimmed milk. Just here we will add that each customer is allowed 80 lbs of skimmed milk to every 100 lbs. of milk brought to the factory. It is demonstrated that by the use of the separator there is 25 per cent. difference from the process of gathering the cream at the farm houses. Every particle of cream is taken from the milk, and accordingly all the butter is taken from the cream. The cream which comes from the separator is put into cream vats. These vats are made expressly for the purpose. They have refrigerator sides in which ice or cold water may be placed, also with steam connection, in order that the proper temperature may be attained. The vat is lined with tin, which is cylindrical shaped. When the proper churning temperature is secured the cream is put into a large churn, when the necessary quantity of butter color is added. The churn used is the Curtis Improved Trunk Lid Churn of 300 gallons capacity, and is of the most approved pattern. It revolves at about 60 per minute and it takes from 20 to 30 minutes to churn when the temperature is exact. This butter-milk is then drawn off through a fine strainer, after which the butter is thoroughly washed. It is then weighed and placed on the butter worker, when it is worked and salted. The worker is the celebrated Mason's Power Butter worker. The table revolves, and two rollers pass over the butter, while it is being turned by the operators. It is then salted to suit the most fastidious palate. In being salted 3 oz. to 1 oz. of salt is used to every pound of butter. After being thoroughly worked it is put up in prints or tubs and is conveyed to the storage room, being ready for market.

On the day previous to our visit there was 8,100 lbs of milk taken in and on the following day it was churned, producing 440 pounds of butter. When the butter-milk was drawn off there was over 600 lbs, and not a particle of butter in the entire lot. The creamery is under the management of Mr. Geo. Jackman, who in turn is supervised and instructed by Mr. M. Sprague, the inspector of creameries employed by the Creamery Association of Ontario. Mr. Jackman is ably assisted by Messrs. Dixon and J. Mooney.

The establishment of the creamery is a boon to the farmer's wife as it greatly lessens her household duties throughout the winter. The only precaution necessary is to keep the milk sweet and from freezing. Monday and Thursday forenoons of each week are receiving days. When the milk is taken in and separated. Tuesdays and Fridays are churning and packing days.

Meetings have been held in several places throughout the county, which have been largely attended by the most intelligent lot of people which could be gathered together for any purpose. The meetings have been addressed by Mr. Hinch, who is sometimes assisted by Mr. Sprague. Many questions are asked throughout the meetings, and it is evident that the farmers of the county are eager for all the information procurable on this subject, which will prove of much benefit to them. New patrons are being added to the creamery, and larger quantities of milk are being received daily. Over 1000 lbs. of butter were made last week, and it was expected that this amount would be greatly increased during the present week.

On Monday morning last they received 15,000 lbs. of milk.

AFTER FORTY-SEVEN YEARS OF SUFFERING AND WOE.

Alfred B. Harris, of Kingsville, Finds Relief—His Public Testimony.
From the Leamington Post.

In his ceaseless search for something of interest to our readers, a representative of this paper last Friday afternoon met with Alfred B. Harris, of Kingsville, who, with a number of other workmen, was employed in erecting a building. After a few minutes chat, Mr. Harris exclaimed: "I tell you, Mr. Reporter, that's a great medicine that Miller, the druggist is selling now." "What medicine?" we inquired. "Why," he said almost amazed that we should ask such a question, "have you not heard of the wonderful cures wrought in this section by the Magic Pile Lotion?"

Our curiosity was now aroused and we decided to investigate Mr. Harris' statements and in answer to our questions this gentleman told a story as exactly related below.

"About forty seven years ago, while working at my trade as a carpenter in a western city in the United States, I was exposed a great deal to wet weather and this, together with the heavy lifting which I was constantly called upon to do, brought on piles. At first I paid little or no attention to them, hoping that they would get well of their own accord. Instead of this, however, they continued to grow worse and, I was compelled to seek some relief, I applied to the druggist in the town and he advised me to apply a preparation which was then being extensively advertised. This I continued to use for several months but in place of doing me good my case grew constantly worse. I then tried one remedy after another, but all with the same discouraging effect. Not only did I use all kinds of patent medicines but I spent hundreds of dollars in treating with the most eminent physician on the American continent. I could give the names of a score of doctors who attended me in Detroit, Lansing, Ann Arbor, Kingsville and other places.

The result was the same in every case and I continued to decline. I moved from one town to another, in the hope that the change of atmosphere would have some beneficial effect, till I can truthfully say that I have travelled over the whole of North America. Tongue cannot express nor pen describe the suffering and agony which I endured. Night and day I experienced the most excruciating pains. I was unable to do any manual labor. I could at times neither sit nor lie down and I have been compelled for days to crawl around on my hands and knees. After having had every kind of piles known, itching, protruding, bleeding, etc., I finally gave up all hope of ever being cured and life itself became a bore to me. I was never free from pain during the whole 47 years. About the first of July last I happened to be in the drug store of Mr. C. S. Miller and he knowing well the severe case of piles with which I was afflicted inquired how I was progressing. I could give him but the same old answer that I was no better. He told me that he had just received a supply of medicine which he knew had already brought about many cures of piles of long standing. It was a remedy which he said, the manufacturers backed up with a guarantee that if it did not perform a cure the money would be refunded. Having tried so many remedies with such unsatisfactory results I was almost inclined to refuse a trial. But on Mr. Miller's recommendation I decided to give Magic Pile Lotion a test and procured one bottle. The result was almost incredible to myself and it will probably be to the public, but it is true, every word of it. Within twenty-four hours from the first application I was a well man and, although this was four months ago I have not had a single symptom of return and I am positive that I am entirely cured. I have suffered so much that I know the value of a remedy which actually cures piles, and do you wonder now that I call it a great medicine? Now I am doing my day's work just as any other builder and not afraid to undertake heavy lifting, something I could not do for many years before. I cannot too strongly recommend all afflicted as I was to use Magic Pile Lotion."

Being asked if he had any scruples about his statements being made public, Mr. Harris said most emphatically no, that he would be an ungrateful man if he did not extol the merits of a remedy which had done so much for him; and with this assurance the reporter took his departure.

Calling upon Mr. Miller, the well-known druggist, we inquired if he could corroborate

the remarkable story told by Mr. Harris. He said he could in every detail. He had been acquainted with that gentleman several years, had known of his sufferings and had supplied him with various remedies but all of which failed until the Magic Pile Lotion was applied. He had seen this medicine effect some wonderful cures in several other cases.

Magic Pile Lotion is manufactured by the Salvator Magus Medicine Co. (Ltd.) of Brockville, and can be obtained of any responsible druggist, or will be sent direct by the manufacturers upon receipt of price, viz. 50 cents per bottle.

—George Haggerty, of the 5th concession of the township of Madoc, suicided last Saturday morning by cutting his throat in a fit of despondency. Enquiry fails to throw much light on the suicide. Mr. Haggerty started for Madoc with his wife in a sleigh. When about half way to town he suddenly turned his team and went back home. He put his horses in the stable, returned to the house, took out a butcher knife unobserved by any of the family, went to a hog pen from which the hogs had been removed a short time ago, and slashed his throat three times. His groans attracted his daughter, who ran out and found him struggling on the hog-pen floor. A doctor was sent for immediately, but Haggerty expired in a few minutes. He leaves a widow and three children.

SUBSTITUTION.

It is universally conceded that when a manufactured article has been standard and staple for many years amongst the trade the profit thereon through competition simmers down to almost a cash discount, of which there are comparatively few who can avail themselves; therefore other brands than those that are standard and staple are substituted in their stead, upon which there is considerable margin. Competition has increased to such an enormous extent amongst wholesalers and retailers that a great many of them consider it necessary and advisable to substitute other brands that seemingly produce large profits. Some are of the opinion that by so doing they benefit thereby. Others prefer to handle standard and staple lines, upon which, although the profit is small, the turnover is much greater; and in the aggregate, profit larger; not taking into consideration the fact that it is much easier and less expensive, and more satisfactory to sell staple lines than those that are unknown. The consumer unfortunately does not understand that when he inquires for a certain class of goods and is informed that they "have none in stock," or "are just out," or "we don't handle them" (which are remarks frequently made by dealers), that their object is to push articles that pay a larger profit. To the thinking public it is obvious that the consumer is a loser thereby and that in order that he should get the best value obtainable for his money, he should insist upon having standard and staple lines. It is a well known and indisputable fact that the celebrated brands of cigars "La Cadena," "La Flora" (manufactured from the cream of the Havana crop), "El Padre," "Madre E Hijo," "Cable Extra" (our new line), "Kickers" and "Mungos" are standard and staple goods; and are manufactured under conditions which for the production of a first class article in every respect are unexcelled. Therefore it behoves them for their own sake to insist upon having these brands thereby insuring to them a reliable smoke, and full value for their money. The cry that is repeatedly heard that "it is difficult to obtain a good cigar" will be unnecessary and unappealing if they insist upon having the brands mentioned. For nearly half a century we have endeavored to place before the public the best value obtainable consistent with the prices charged; and it is well known that our goods are staple, and reliable; and that the demand for same is increasing. We therefore respectfully beg to state that when our brands are enquired for, and the answers above mentioned are given, we will upon application to us undertake to deliver, in small or large quantities, any of our brands that are desired. Our goods are better than ever. Our aim has always been to produce nothing but fine goods which the public have shown their appreciation of by the enormous quantities that are sold annually. We aim to protect the consumer as well as the dealer, and by his enquiring for our goods, he protects himself.

holy horror. Only in his dreams, which were dark and troubled, did he visit it to see the face of the murdered man in the darkness, and the hand of the murdered man pointing at him with cold, decaying finger.

The day after the murder he had been greatly unsettled by a visit from Tim Linney, who demanded news of his master and said that he had not returned to the Caravan all night. Tim seemed greatly troubled, but gave vent to no very violent ebullitions of grief. When he was gone Matt sat by the fireside and looked long and keenly at William Jones.

"What are you staring at?" cried he, fidgeting uneasily under her gaze.

"Nowt," said Matt; "I were only wondering."
"Then don't go wondering," exclaimed the good man, rather inconsistently. "You mind your own business, and don't be a fool!" And he turned testily and gazed at the fire. But Matt, whose eyes were full of a curious light, was not to be abashed.

"Ain't you well, William Jones?" she asked.
"I'm well enough—I am."
"It's queer, ain't it, that the painter chap never come home?"
"How should I know?" growled William. "May be he's gone back to where he come from."

"Or may be he's drowned? Or may be he's summat else has happened to him?" suggested Matt.

"Never you mind him, my gal. He's all right, never fear. And if he ain't, it's no affairs o' yours, or mine neither. You go along out and play."

Matt went out as directed, and it was some hours before she returned. She found her guardian seated in his old place by the fire, looking at vacancy. He started violently as she entered, and made a clutch at the rude piece of ship's iron which served as a poker.

"Be it you, Matt? Lor', how you startled me? I were—I were—taking a doze."

"I've been up yonder," said Matt. "Up where?"

"Up to the painter chap's cart. He ain't come back; and the man is searchin' for him all up and down the place."

Fortunately it was very dark, so that she could not see the expression of her hearer's face. She walked to the fireplace, and, taking a box of lucifers from a ledge, began to procure a light, with the view of igniting the rushlight fixed to the table. But in a moment William blew out the match, and snatched the box from her.

"What are you doin' off?" he cried. "Wasting the matches, as if they cost nowt. You'll come to the workus afore you're done."

The days passed, and there was no news of the absent man. Every day Matt went up to the Caravan to make inquiries. At last, one afternoon, she returned, looking greatly troubled; her eyes were red, too, as if she had been crying.

"What's the matter now?" demanded William, who had left his usual seat and was standing at the door.

"Nowt," said Matt, wiping her eyelids with the back of her hand.

"Don't you tell no lies. You've heard summat? Stop! What's that there under your arm?"

All at once he had perceived that she carried a large roll of something wrapped in brown paper. He took it from her and opened it nervously. It was the crayon portrait of herself executed by the defunct artist.

"Who gave you this here?" cried William Jones, trembling more than ever.

"Tim."

"Who's he?"
"Him as come looking arter his master. The painter chap ain't found; and now Tim's goin' away in the cart to tell his friends. And he give me this—my pictur'; he give it me to keep. His master said I were to have it; and I mean to keep it now he's dead!"

William Jones handed back the picture, and seemed relieved, indeed, when it was out of his hands.

"Dead?" he muttered, not meeting Matt's eyes, but looking right out to sea. "Who told you he were dead?"

Matt did not reply, but gazed at William so significantly that the man, conscious of her scrutiny, turned and plunged into the darkness of his dwelling.

An hour later a loud voice summoned him forth. He went to the door, and there was Monk of Monkhurst. It was

Holloway's Pills.

This Medicine has resisted every test which time, prejudice, and vested interest could impose upon it, and it at length stands forth triumphant as the most reliable remedy for those derangements of the system so common at the change of seasons. When the air grows cooler, and the functions of the skin are retarded, an occasional dose of Holloway's Pills will call on the liver and kidneys for greater activity, and compensate the system for diminished cutaneous action. As alternatives, aperients, and tonics these Pills have no equal. To every aged and delicate person whose appetite is defective, digestion infirm, and tone of health low, this medicine will be a precious boon, conferring both ease and strength.

CHAPTER XIV.

THE CARAVAN DISAPPEARS.

Several days passed away, during which William Jones showed a strange and significant affection for his own fire-side. He went out a little in the sunlight; but directly night came he locked and barricaded the door as if against thieves, and declined, on any inducement, to cross the threshold. Even had a three-decker gone ashore in the neighbourhood he would have thought twice before issuing forth into the dreaded darkness.

For William Jones was genuinely afraid; his hereditary calm of mind was shaken, not so much with terror at a murderous deed, as with consternation that his life-long secret had been discovered by one man, and might, sooner or later, be discovered by others. He did not put implicit faith even in Monk; it was his nature to trust nobody where money was concerned.

As to returning back to the cave until he had quite recovered his equanimity, that was out of the question. Even by flight he avoided the spot with a

suit, and looked unusually spick and span.

"Where's the girl?" he cried, after a whispered colloquy of some minutes. "Matt, where are you?"

In answer to the call Matt appeared at the door. No sooner did she perceive Monk than she trembled violently and grew very pale.

"Come here, Matt," he said, with an insinuating smile. "See! I've brought something for you—something pretty for you to wear."

As he spoke he drew from his waistcoat pocket a small gold ring, set with turquoise stones. But Matt still trembled, and shrunk away.

"I don't want it! I shan't wear it," she cried.

"Nonsense, Matt!" said Monk. "Why, it's a ring fit for a lady. Come, let me put it on your finger."

So great seemed her agitation, so deep her dread of him, that she could not stir, so that when he approached laughing, and caught her round the waist, he slipped the ring on her finger before she could resist. But it only remained there a moment. With a quick, sharp cry, she tore herself free, and, taking the ring off, threw it right away from her upon the sand. Then, with a wild gesture of fear and loathing, she rushed into the cottage.

William Jones walked over and picked up the ring, while Monk stood scowling darkly after the fugitive.

"What the devil ails the girl?" cried the latter, with a fierce oath, pocketing the present.

"I dunno. She's never been the same since—since the painter chap went missing. I'm afeared he turned the gal's head."

"He'll turn no more heads," muttered Monk under his breath. He added aloud and with decision, "There must be an end to this. She must be married to me at once."

"Do you mean it, master? When you spoke on it first I thought you was joking."

"Then you were a fool for your pains. She is old enough and bold enough and vixenish enough; but I'll tame her. I tell you there must be no more delay. My mind's made up, and I'll wait no longer."

Sinking their voices they continued to talk together for some time. Now Matt was crouching close to the threshold, and had heard every word of the above conversation, and much that followed it. When Monk walked away and disappeared, leaving William Jones ruminant at the broken gate, she suddenly reappeared.

Curiously enough all her excitement had departed. Instead of weeping and protesting, she looked at William Jones—and laughed.

Monk had left his horse at the coast-guard station. Remounting he rode rapidly away through the sand hills in the direction of the lake. As he approached the spot of the old encampment, he saw that the Caravan had gone.

He rode on thoughtfully till he gained the highway, when he put his horse into a rapid trot. Just before he gained the gate and avenue near to which he had first encountered Brinkley, he saw the Caravan before him on the dusty road. He hesitated for a moment, then hurried rapidly forward, and arriving close to the vehicle, saw the Irishman's head looking round at him from the driver's seat. He beckoned, and Tim pulled up.

"Has your master returned? I am informed that he has been missing for some days."

Tim shook his head very dolefully. "No, sir; sorry sight have I seen of him for three days and three nights. I'm going back wid the baste and the house, to tell his friends the bad news. May be it's making fun of me he is, and I'll find him somewheres on the road."

"I hope you will," said Monk, sympathetically. "I think—hum—it is quite possible he has, as you suggest, wandered homeward. Good-day, to you."

So saying, Monk turned off by the gate which they had just reached, and rode away up the avenue.

Tim looked after him till he disappeared. Then the same curious change came over him which had come over Matt after she had been listening to the colloquy between Monk and William Jones.

He laughed!

GOSPORT, IND., August 11th, 1890.

My neighbors and stockmen often asked me in regard to Rock Salt. I answer them that I have used the New York Rock Lump Salt for the past three years for my cattle, horses, sheep and hogs, and I can say that I have no use for barrel salt for my stock. Experience will satisfy any stockman that the Lump Salt is far better for all kinds of stock. Men in my neighborhood who began using by buying 100 lbs. are now buying in lots of 500, 1,000 and 2,000 lbs. I consider it just as cheap at \$1.00 per hundred, as barrel salt at \$1.00 per barrel. Stock will not scour as they do when using the common salt, and I am of the opinion that it is only a question of time when it will be in common use. Very respectfully yours,

THE PENNEFATHER CASE.

HE PROPOSED THE JOB BUT OFFERED SMALL PAY.

A Bar Tender Gives Startling Evidence—He Furnished Materials for the False Keys for the Vault—Would Not Be the Last Man to go Back on a Pull.

CHATHAM, Ont., Dec. 14.—In the Standard Bank robbery case very startling evidence was given by the principal Crown witness, one Charles Gregory of Windsor, who was until recently a resident of Chatham and kept the bar at his father's hotel. Gregory's story was in substance that Pennefather, the young ex-ledgerkeeper, now in custody on the charge of being the robber, procured materials from him with which to make keys for the middle door of the vault and for the teller's compartment in the treasury.

He then proposed to him to rob the bank.

Gregory refused on account of Pennefather being drunk, but subsequently agreed to go with him. He only followed him, however. Saw him come out of the bank and then go back to the hotel, in which place later on Pennefather pulled 12 packages of bank notes out of his pocket and offered them to him.

Gregory refused them because they were only ones, and the upshot was that Pennefather left the place and the deal between the two was at an end.

Would Not Have the Small End.

Gregory admitted that he did not think Pennefather was treating him right in giving him only the small end. He declared he would not be “the last man on earth to go back on a pull of this kind.”

The reason why he told of the affair to the police was that he was afraid Pennefather would be caught and would drag him into it. He therefore decided to knock him under first and so save his own liberty.

After hearing the evidence of Teller Brown as to the circumstances of the loss, his story not agreeing with the other in essential points, the police magistrate decided that the case was one that should go before the judge.

An alleged accomplice, William Ritchie, who has for a long time been an inmate of the young banker, has been arrested at the instance of Detective McKee. Ritchie is a stage carpenter at the Grand Opera House, unmarried and of respectable family. The Crown consented to bail,

HIS RESIGNATION.

Will Probably Extend the Official Life of the Ribot Cabinet.

PARIS, Dec. 1.—M. Rouvier called upon President Carnot yesterday and handed in his resignation of the finance portfolio.

In the Chamber of Deputies yesterday M. Rouvier confirmed the statement made by M. Clemenceau that he and Baron de Reinach visited Clemenceau on the eve of the Baron's death.

Paul de Roulede, former president of the suppressed Patriotic League, made a violent attack upon Rouvier, declaring he ought to be compelled to appear before the High Court to answer charges made against him in connection with his conduct while holding a Ministerial position.

M. Rouvier responded, saying he was ready to answer in any court any charge. He added that he had visited Baron de Reinach solely from motives of humanity.

The resignation of Rouvier will probably result in an extension of official life to the Ribot Cabinet.

Shortly after M. Rouvier's visit to President Carnot it was officially announced that the Finance Minister's resignation had been accepted and that M. Tirard, ex-Minister of Finance, and at present representing France at the Brussels conference, had been appointed to succeed him.

THE ARMY BILL.

The Saxon Minister of War Favors Caprioli's Measure.

BERLIN, Dec. 14.—The general debate on the Army Bill was continued in the Reichstag yesterday. The Saxon Minister of War spoke strongly in favor of the bill. He said that his Government endorsed it in every particular, and thus contradicted the rumors to the effect that the King of Saxony was irreconcilably opposed to the passage of the bill.

Rudolf von Bennigsen, National Liberal leader, opposed the bill conditionally. It could not be passed unless altered, he said, and nobody should expect a parliamentary majority for it as it was presented.

August Bebel, social Democratic leader, denounced the bill from beginning to end. It was merely a provisional measure, he said, and the assurance given to the contrary should be considered in the light of the ever recurring demands of the last 20 years. The so-called Nationalist program was a threat to the provisions of the bill.

The Feeling in London and England About Canada and the Colonies is Most Extraordinary—Not Much Possibility of Protection in England.

MONTREAL, Dec. 14.—The despatches publishes the following interview with Hon. C. H. Tupper, Minister of Marine and Fisheries, who has been for some months in England preparing the case for the British Government in the Behring Sea matter as agent of Her Majesty the Queen.

The first subject broached was the death of the Hon. W. H. Cross, who was the British associate counsel in preparing the Behring Sea case for Britain. The reporter showed the Hon. Mr. Tupper the cablegram announcing the death of Mr. Cross and asked him would it in any way affect the pending negotiations.

Mr. Tupper said: I have already heard the sad news, and was exceedingly pained to hear that my friend had been so suddenly taken away. We had worked together on a great deal of the preparation of the case and counter case in the months of June, July and November.

Mr. Cross was the son of Lord Cross and was a counsel at the London bar, while representing also in the House of Commons one of the divisions of Liverpool. He seconded the motion for the address in reply to the Speech from the Throne last session.

He was working hard with me, up to the day on which I left, and just before my departure he was suddenly stricken with apoplexy. He was in a precarious condition, but he was only about 35 years of age and I imagined that with his splendid physique and youth in his favor he would survive the attack.

I was very much surprised this morning to learn from the cablegram that he was dead.

Singularly Fortunate.

I may say that in the preparation of the British case we have been singularly fortunate in our legal associates. In the first place we have the Attorney-General under the Gladstone Government, Sir Charles Russell; the Solicitor-General, Sir Richard Riggby, and Christopher Robinson, Q.C., of Toronto, who, together with Mr. Cross, gave their constant and most earnest attention to the work, not merely directing many particulars of it but actually working

GEORGE BRIGGS DEAD.

Such Was His Strength That Few Ordinary Men Could Overcome Him.

KINGSTON, Dec. 14.—Yesterday morning George Briggs, about 55 years of age, customs officer at Wolfe, died from the effects of dropsy.

Through the intervention of B. W. Fogler deceased was appointed to the customs department about 15 years ago and made an efficient officer. He was well-known in the city, and was a big, strong man. Such was his strength that few ordinary men were able to overcome him.

For many years he and his brother conducted the summer hotel at Simcoe Island and made the business a success. He had been a resident of this district for many years and told interesting stories of the times during the American war, when men as well as goods were smuggled from Canada to the United States.

A better natured man than the deceased was hard to find. He was a great favorite with the young men of the city. He was attacked by disease about two years ago, and for many months lay in a critical condition.

Some physicians thought he could not live. He was treated by a Yankee physician, who prescribed a remedy that prolonged his life, and he became so well that he was able to come to the city and do business. The disease had not been entirely eradicated and death conquered. He leaves a wife.

WIRES DOWN.
Another Storm Is General Throughout the West.

CHICAGO, Dec. 13.—Another storm of sleet, snow and rain combined is general throughout the west to-day and has caused an almost complete interruption of telegraphic communication.

Neither of the telegraph companies can handle any but the most urgent despatches and press matter is almost at a standstill.

The storm extends eastward into Pennsylvania and west beyond the Missouri River, and the outlook for better weather is not at all encouraging. Wires are down in all directions.

CYCLONE IN MISSOURI.
House Blown Down and Three Killed and Five Wounded.

SUMMIT, Mo., Dec. 14.—A cyclone yesterday blew down the house of Rev. R. R. Young, a Baptist minister, two miles from here, burying the inmates in the ruins.

S. A. Love's house also was completely wrecked. Those killed are a 9-year-old daughter of William A. Freeman, colored, a colored woman and a colored man, names unknown.

S. R. Young, Mrs. Young and a son and daughter are seriously wounded, as is Mrs. S. A. Love. Several others were less seriously hurt.

Attempt at Train Wrecking.
WINDSOR, Ont., Dec. 14.—The Michigan Central express, due in Windsor early yesterday morning, ran into something a few miles this side of Maidstone. The engineer, upon arrival here, notified the operator at Maidstone, who investigated and found a dastardly attempt had been made to wreck the train.

Several ties had been placed upon the track, but the cowcatcher drove them to one side. Detective Heenan is at Maidstone investigating.

No Result Expected.
WASHINGTON, Dec. 14.—The statement is made in high official circles that the International Monetary Conference at Brussels will within a few days adjourn to meet in March or April of next year. No result is expected to be secured at the present session of the congress.

Dunraven's Challenge Accepted.
NEW YORK, Dec. 14.—At a special meeting of the New York Yacht Club held last night Lord Dunraven's challenge was unconditionally accepted.

Poisoned With Cakes.
LIMA, Ohio, Dec. 14.—Three of the Brown family at White Oak who partook of cakes with which rat poison had been mixed have since died, and three others are in a critical condition.

A Murderer Sentenced.
LONDON, Dec. 14.—C. Duckworth, 32 years old, was sentenced to death yesterday for having murdered Alice Barnes, a farmer's daughter, near Blackburn on Nov. 18.

WARRANTS AGAINST DEPOSITS OF SILVER.

BRUSSELS, Dec. 14.—M. Foville, a French delegate to the monetary conference, has submitted a proposal to the conference to the effect that warrants shall be issued against deposits of silver on same system as that which prevails in Glasgow, Scotland, where warrants are issued on deposits of pig iron, the warrants not to have recognition as international currency, but simply to bear the statement that they are good for the weight of silver specified.

It is understood all the countries in the Latin union will support the proposition, which is likely to secure the support of every section of the conference.

HOME RULE BILL.
The Measure Menaces the Unity of the British Empire.

LONDON, Dec. 14.—The union of Conservative associations held its annual meeting in Sheldiel yesterday. The attendance of delegates from all parts of the Kingdom was very large. The Earl of Scarborough was elected president.

Charles Stuart-Wortley, M.P., made the opening address. He declared the whole Conservative party would support the burden of rejecting the Liberal gerrymandering electoral reform bill and the Irish Home Rule bill, which latter measure menaced the unity of the Empire.

The conference adopted a resolution declaring in favor of the return to Parliament of candidates of the labor party.

No Hostility at Rome.

LONDON, Dec. 14.—The Standard's Rome correspondent says: "In response to letters from foreign organizers of pilgrimages, expressing fears of a hostile reception in Rome, the Vatican gives assurance that there is nothing to fear, it being to the interest of the government to prevent a repetition of the scenes of October, 1891. The Pope has intimated that offerings of money would be the most suitable jubilee gifts."

Mrs. Langtry Angry.

LONDON, Dec. 14.—The Morning Post says: Mrs. Langtry has offered a reward of £50 for information as to the origin of an unpleasant story about herself. She was the heroine, the story has it, of a disreputable scene at supper at the Savoy Hotel, when it is alleged she threw butter at a number of gentlemen, and was requested to finish the meal in a private room and then to quit the hotel.

Home Rule Trouble.

DUBLIN, Dec. 14.—John Dillon, in addressing a National Federation convention at Boyle yesterday, admitted that there was some danger and risk of trouble in Parliament over the coming Home Rule, but he said it arose rather from the dissension in Ireland than from the condition of the parties in England.

On the Retired List.

PARIS, Dec. 14.—Lieut. Count Reine de Segonzac has been placed on the retired list in consequence of his failure to give a satisfactory account of the death of Lieut. Paul Quinquere, his companion in an exploring expedition on the Ivory Coast.

Busy Watchmakers.

ROME, Dec. 14.—The Naples Courier says that the Jesuits are trying to arrange a matrimonial alliance between Don Jaime, son of Don Carlos, and Infanta Mercedes, daughter of the late King Alfonso. Don Jaime is 22 years of age and Mercedes 10 years younger.

He Startled the Crowd.

MADRID, Dec. 14.—After Sagasta's statement in the Cortes yesterday, while many of the deputies were cheering for the Queen Regent and the young King, the Republican, Salmeron, arose and in a ringing voice cried, "Viva Republic!" A scene of intense excitement followed.

A Torpedo Boat Lost.

KIEL, Dec. 14.—A Turkish torpedo boat left here Nov. 18 and has not been heard of since. She is supposed to have been lost in the Atlantic.

A Strike Averted.

NEW YORK, Dec. 14.—It was stated yesterday that the threatened trouble between the Brotherhood of Locomotive Engineers representing the Vanderbilt lines and the New York Central Railway has been dissipated, matters having been satisfactorily arranged between the two parties.

A Well-Known Editor Dead.

LONDON, Dec. 14.—Sir John Bernard Burke, editor of Burke's Peerage, died yesterday.

...tension to the work, now merely un-
many particulars of it but actually working
out much of the actual preparations. The
staff of the Foreign and Colonial, as well as
my own immediate staff of the Fisheries
Department, have also thrown them-
selves into the work with the liveliest in-
terest."

"That leads me to ask," said the reporter, "while you were in London what department of the Imperial Government were you specially connected with?"

Mr. Tupper replied: "The Foreign Office, immediately under Lord Rosebery, the foreign secretary, who has the direction of Her Britannic Majesty's case, as they say, in the convention. The Foreign Office placed a room at my disposal and afforded me every facility for doing the work. I was there from day to day."

"Have you completed your part of the work for the Canadian Government?"

"The bulk of the work," said Mr. Tupper, "has been done in connection with the counter-case, but very important finishing touches remain and the counter cases will be served on or before Feb. 3."

"Then I suppose," said the reporter, "you expect to go back to England in connection with this matter?"

To Return to England.
"Oh, yes," said Mr. Tupper, "as agent of Her Britannic Majesty I must attend the convention, which meets not later than Feb. 23."

"So that if there is an early session of Parliament you will possibly not be present most of the session?"

"I am sorry to say that I will not," said Mr. Tupper, with an air that he would wish to be in it and like to have a hand in the fight as the son of the old war horse from Cumberland. He added, "But Sir John Thompson is acting Minister of Marine and Fisheries."

The reporter then asked: "Mr. Tupper, would you care to say anything in reference to the report of misrepresentation of the Behring Sea case on the part of an official in the service of the United States Government?"

The Behring Sea Case.
"It would be impossible for me to make any statement touching either the United States case or the British case, as both the case and the counter-case are confidential until the arbitrators meet in Paris."

"Are the reports true," asked the reporter, "that the mis-statements in the United States case were detected by the Canadian representatives?"

Mr. Tupper said: "I am precluded from answering that question, for the reason given to your last question."

"Just now," said the reporter, "there is a great deal of talk about the mission of Sir John Abbott and Mr. Foster to England, and a great deal of news in the Canadian and London papers about what they did over there; did you meet them?"

"Yes, I met Sir John Abbott and Mr. Foster over there, but I was so busy at my duties in the Foreign Office that I probably saw less of them than I would during a session of Parliament in Ottawa. Sir John Abbott is not in very good health, but he was able to attend to some most important matters in connection with the Canadian Government while he was Premier, but on account of the state of his health he was necessarily very retiring and attended no public ceremony or banquet."

"The Finance Minister was able to speak before representative British audiences on several important occasions. Mr. Foster was well received and made in England a reputation and impression that any Canadian might well be proud of."

Mr. Foster's Favorable Reception.

"I not only formed this opinion of the effects of his speeches myself, but all the leading London dailies commented in the most favorable manner upon the subject of his various addresses and have conceded unstinted praise. His speech at the Mansion House was admittedly the speech of the day, and his address at the Chamber of Commerce was not only well received by those who heard it, but was much talked about in financial and political circles."

"The feeling in London about Canada and the colonies of England is most extraordinary. Canada occupies in England to-day an unprecedented position in the feelings of the governing classes and the masses of the people, and there is the liveliest interest in the welfare and progress of our Dominion on all sides."

"There is evidently the heartiest goodwill in connection with everything Canadian, or, indeed, colonial. Indeed I may say that in this regard there is no distinction between the parties in England, Liberal or Conservative."

"I need not speak of the doctrine of protection in public favor in England; the recent important meeting of the agricultural

A STRANGE LETTER.

It May Throw More Light On the Cause of Baron de Reinach's Death.

NEW YORK, Dec. 14.—The Herald's Paris correspondent says: "M. Clemenceau has written a letter to The Figaro relating this on the eve of the death of Baron de Reinach the latter came to see him with M. Rouvier, Minister of Finance, and asked him to go and find Cornelius Herse, in order to try to stop the attacks made."

"Clemenceau accepted and went with Rouvier to Herse, who, however, declined to do anything. Baron de Reinach then said:

"If we do not succeed all is lost. Let us go to M. Constans."

"All three went to see Constans, who declared he could do nothing."

"On leaving, Baron de Reinach said, 'I am lost.' The letter ends with these words: 'After which I saw him no more.'"

"The consequences of the letter will be incalculable. Rouvier will no longer be Minister of Finance. To-morrow the political careers of Clemenceau and Constans are ended. We are only just entering into the mud, of which, nevertheless, there is enough at present."

GRABBED HIM AT ONCE.

He Stole \$2000 From His Employer and Was Nabbed in a Few Hours.

MONTREAL, Dec. 14.—Chief Detective Cullen has received a telegram from Chief of Police Vohl of Quebec informing him that a young man named D. Lesuerer had decamped on the Montreal train with \$2000 in notes stolen from his employer. The telegram also gave a full description of the absconder.

Detective Robinson was entrusted with the case and at once proceeded to Mile End to await the incoming train. While there, however, a telegram was received from Three Rivers saying that the police at that place had the man in custody. He will be taken to Quebec this morning.

After More Profits.

CHICAGO, Dec. 13.—The publishers of subscription books have formed a trust with the intention of forming the largest publishing house in the world. It is to be called the Werner Company. It embraces Peale & Co., who absorbed Belford, Clark & Co., the Werner-Clark Printing Company, and the Webster Dictionary Company. Rand & McNally are not in it.

The capital is \$3,500,000. Messrs. Werner, Peale, Alexander Belford, D. H. Cochersperger and J. T. Edson are shareholders. Business will commence Jan. 1.

Will Be Rebuked.

CINCINNATI, Dec. 14.—The committee appointed by the Cincinnati Presbytery to report upon the penalty to be visited upon Prof. Smith, who was found guilty of charges two and three brought against him, to-day submitted two reports.

The majority recommended a rebuke and the minority a suspension. The court went into secret session to consider the reports.

American Public Health Association held during the past three weeks in the City of Mexico. There were 500 delegates at the convention, about one-half of whom were Spanish-speaking Mexicans. Dr. Bryce says the Mexican Government fully appreciates the aims of the association. Papers were read at the meetings in both Spanish and English and all English papers were published by the Government in Spanish and distributed throughout the city.

Of course the chief matters of discussion were the schemes proposed by which Mexico, the United States and Canada might by joint or separate action protect themselves from the cholera epidemic next summer. A special committee on the matter reported a resolution calling upon the American Government to at once establish a bureau of health, with headquarters at Washington, and with complete control of the external quarantine of the United States. The resolution also stated that it was quite essential for the proposed bureau to be vested with powers enabling it to co-operate with the Canadian and Mexican authorities. This resolution was unanimously adopted.

The association also expressed itself in favor of a proposition to close all but a limited number of ports to immigrants from Europe. A more effective method of excluding the fell pestilence would be, they thought, to prevent all immigration for one year, but in case that was impracticable the steamship companies ought to be compelled to obtain for each vessel sailing from European ports for America a clean bill of health from the American authorities.

Dr. Bryce expressed himself as well pleased with his visit to the convention, and with the intelligent interest our dusky neighbors to the south take in sanitary matters.

YOUNG BLAINE.

Says His Father Is Improving and Progressing Nicely.

WASHINGTON, Dec. 14.—James G. Blaine, Jr., said last night to a reporter of The United Press: "Father is improving and progressing nicely. We have no apprehension as to the final outcome of his indisposition."

"Has your father, or the family, made any definite plans for the proposed trip when the weather will permit?" was asked.

"No, not as yet."

"How about the rumors that Dr. Ducey and Cardinal Gibbons induced your father into the Catholic Church?"

"There is no truth in the rumor. Dr. Ducey called to see father one day last week only in a friendly way, as did Cardinal Gibbons yesterday. That is all there is to it."

FULL OF NERVE.

He Killed Two Murderers of His Father and Captured a Third.

SAN FRANCISCO, Dec. 14.—Mail advices from Japan report that three escaped Japanese convicts recently found shelter in the house of a family. They were kindly treated and supplied with food for three days.

On the fourth day, during the absence of the son and daughter, they murdered the father, pillaged the house and fled. The son overtook the men, killed two and captured the third.

POISON AT HOMESTEAD.

The Victim at Toronto Not Known by Carnegie Officials.

PITTSBURG, Pa., Dec. 14.—The Charles Stanford, who died in Toronto, Ont., last night from supposed poison administered at Homestead during the strike, is not known by the Carnegie officials. Secretary Lovejoy said the company sent several sick men home, but kept no record of them.

The officials and members of the Homestead Advisory Board continue to denounce the poison plot as a scheme to further injure them.

Niagara Reservation.

ALBANY, N.Y., Dec. 14.—The commissioners of the Niagara reservation will meet Thursday in New York to prepare their annual report and prepare estimates for many repairs and improvements to be made the coming year. The number of visitors to the reservation from Oct. 1, 1891, to Sept. 20, 1892, was 196,580, and the receipts will almost equal the expenditures, regardless of improvements.

Up Instead of Down.

MILWAUKEE, Dec. 14.—The indications are that to-morrow morning whisky will be sent up another five cents and alcohol 10 cents a gallon, and the present unsettled state of the market becomes more confused and uncertain in consequence.

Producers Paid It.

WASHINGTON, Dec. 14.—During the month of September the collector of customs at Marquette, Mich., collected canal tolls to the extent of \$8326.79 on Canadian vessels. For October the sum was \$14,130.58.

An utter loss of hope is not characteristic of Consumptives, though no other form of disease is so fatal, unless its progress is arrested by use of Scott's Emulsion, which is Cod Liver Oil made as palatable as cream.

Credit Sale.

Mr. A. G. Shewell will offer his farm stock and implements for sale by Public Auction at lot No. 22, 6 concession of Ernestown, on Monday, December 19th, at 12 o'clock noon. ROBT. McCAY, Auctioneer.

Richmond Election.

We are informed on reliable authority that our young friend Mr. Chas. Anderson, of Roblin, will be a candidate for the Deputy-Reeveship for that municipality. Charley, if elected, will do honor to his native township.

To Day

Hood's Sarsaparilla stands ahead in the medicine world, admired in prosperity and envied in merit by thousands of would-be competitors. It has a larger sale than any other medicine. Such success could not be won without positive merit.

Salvation Army.

On Saturday evening next, at the army barracks here, there will be a Band Concert, 17 instruments, principally from Kingston, Staff Capt. Bolton in command, assisted by Capt. John McGinness. Also be here all day on Sunday. Admission to concert on Saturday 10 cents. A cordial welcome is extended to all.

Ghosts Work at Napanee.

On Thursday morning parties visiting the cemetery discovered that the grave of Nancy Pringle, who died and was buried last week, had been tampered with and upon examination the body was found to have been removed. The parties who dug up the grave the second time to discover if the body was still there claim to have found a memorandum book in the grave, bearing the name of one of the students at Queen's college, Kingston, and memorandum dates of the taking of several bodies in this vicinity. Among the names is that of Abram Maracle, Tyndinaga. The book it is supposed, dropped from the pocket of the supposed student while he was filling up the grave. It is said a lawyer has the case in hand and is dead on the trail of the guilty parties who will be prosecuted.

Fell Into the Cistern.

On Thursday morning last, while Mrs. John Wilson, living on the Belleville road, opposite "the Square," was washing, one of the little children fell into the cistern, the trap door having been left open. The mother seeing the child fall ran to her rescue and jumping into the cistern, which was about four feet deep, she grabbed the child but found herself unable to get out with it in her arms until one of the children called in David Hayes and Mrs. Anderson who soon rescued them none the worse for their ducking.

We Should Live One Hundred Years.

We are a century animals and have a perfect right to live out that period if we can. Many do so. Consumption has been killing off the flower of our youth through the centuries, but it will do so no more Why? Because "Miller's Emulsion of Cod Liver Oil," wherever used, cures consumption and the coughs and lung troubles which give rise to it. It will be like suicide to die of consumption in future if "Miller's Emulsion of Cod Liver Oil" is within reach. In big bottles, 50c. and \$1.00, at all Drug Stores.

Election of Officers.

The semi-annual election of officers of Napanec Council, No. 295, Royal Templars of Temperance, took place on Friday evening, Dec. 9th. The result is as follows:

- M. B. Duimage, S. C.
- Mrs. Gould, V. C.
- E. B. Hemstreet, Chaplain.
- Kenneth Neville, Rec. Sec.
- Miss Hemstreet, Fin. Sec.
- E. M. Wallbridge, Treasurer.
- Jas. Loudfoot, Herald.
- Mrs. Hemstreet, Guard.
- Mrs. Palmer, Sentinel.
- T. C. Fraser, Delegate to Grand Council.

Oyster Supper.

On Friday evening of last week, the County Treasurer and County Clerk, Messrs. Parks and Wilson, invited the County Council to an oyster supper at Dickens restaurant. The table was well served, the oysters were good, the trimmings were excellent, and the guests in high spirits. Speeches were made after supper, and the Warden, Mr. Wagar, and others who are retiring from the County Council this year, were complimented on the zeal and fidelity with which they had looked after the affairs of the county and the interest of their municipalities. One and all extolled the closing session of the council as having been one of the pleasantest on record. Much regret was expressed and we are sure felt also, that the Warden and Messrs. Wagar and Long, and others, were not likely to return, the members of the county council of 1892 having a great regard generally for each other. The supper was a great success, and was prolonged just sufficiently time enough, leaving the guests a little while to chat before retiring for the night.

An Intellectual Treat.

concerning it. Miss Alexander gave unbounded satisfaction, not one of the large and select audience but was pleased by her manner and satisfied with her ability. She received several enthusiastic encores, and responded in a very affable way, with pieces that were even more attractive than those on the programme. Of the volunteered assistance, Mrs. Deacon, of Kingston, was very warmly welcomed once again to Napanee, and the applause showered upon her efforts were well deserved. The two Harveys also from Kingston, were an immense success, Mr. Robert being a splendid pianist and Mr. Charles a singer of whom Kingston may well be proud. The instrumental number given by Miss Hall was pretty in itself and was exceedingly well rendered. The local quartette Mr. and Mrs. James Herring, Mrs. Herrington and Mr. Jewell, also held their own with the audience, and did credit to the town. They received a hearty encore. The ladies of the Junior Guild of S. Mary Magdalene are to be congratulated upon the success achieved, for their labors were certainly well rewarded and appreciated. The labors of the Secretary-Treasurer, Miss Edith Herring, were very arduous, but were thoroughly well performed, and she deserves the greatest credit for the able manner in which she made all the arrangements. She was assisted by Miss Grange, Miss Mair, Miss McGreer. The financial result largely exceeded all expectations. The fine piano used was from the establishment of Mr. W. A. Rockwell.

Surprise and Presentation.

On Wednesday evening, Nov. 30, a large party assembled and proceeded en masse as a surprise party to the residence of B. S. Rockwell, Esq., Violet. When Mr. and Mrs. Rockwell came to themselves they found their home taken possession of by about sixty of their friends from the surrounding country, who had evidently come to make merry for at least a little while. Mr. Rockwell has always lived in the same neighborhood with the exception of two years he spent in Kingston, from which city he has recently returned to the scenes of his boyhood. It was as a welcome back to their old home that this company gathered. After a sumptuous repast provided by the ladies of the party, had been enjoyed by all, Mr. Wm. Perry was called to the chair, and a very entertaining programme placed in his hands. Besides plenty of local talent an orchestra from Wilton and one of the lady soloists of Napanee furnished many choice selections. Rev. Mr. Sanderson and wife and others gave short addresses. During an interval in the entertainment Miss E. Adams read an address, and Mr. N. Storms on behalf of Violet congregation presented Mr. Rockwell with a handsome gold-headed cane as a slight acknowledgement of valuable services rendered them as leader of their choir. After the usual congratulations, well wishes, &c., the company dispersed to the music of "Auld Lang Syne."

THE ADDRESS.

Mr. Rockwell, Dear Brother—We have assembled here this evening to welcome you back as one of us. We missed you at your fireside, at our social gatherings, but chiefly the valuable service which you so willingly rendered Violet congregation as leader of our choir. It is to show in a small way how highly we value that service that I in behalf of Violet community present you with this token. Please accept this cane, not for its literal worth, but as a slight recognition that your efforts were appreciated by us. We again extend a hearty invitation to you to accept the position which so acceptably filled before your removal, trusting that you delight as much in the songs of praise to our Redeemer as formerly. We all join in wishes of many and prosperous years to your household, trusting that kind Providence has many choice blessings in store for you and your good wife, and that your last days may be your best days.

We remain as ever,

YOUR TRUE FRIENDS AND NEIGHBORS.

Mr. Rockwell replied as follows:—Neighbors and christian friends, it is with feelings of gratitude I meet with you this evening and appreciate the friendly greeting of so many of my old friends of the Violet congregation. I shall ever try to maintain the same sociability and usefulness in and out of the Violet Church. Receive my kindest thanks for the Address and also for the very beautiful gold-headed ebony cane which will be a great support to me in my declining years.

Interesting and satisfactory reports were received from several sub-associations.

The following resolution was adopted:

Whereas, It has pleased the Supreme Ruler of the Universe to remove, from our esteemed President's household a cherished son.

Therefore Resolved, that we tender the bereaved and sorrow-stricken parents and family our heart-felt sympathy trusting that they find comfort and consolation in Him whose sympathy is far greater than humanity can offer.

Resolved farther, that this resolution be inserted in the minute book and that a copy be sent to Bro. Haycock.

County Court.

County court and general sessions opened on Tuesday, 13th inst., before His Honor Judge Wilkinson. The following members of the bar were present: A. L. Morden, Q.C., County Crown Attorney; H. M. Deroche, Q.C.; J. H. Madden and W. S. Herrington. There were no cases on the docket for the County Court and only one appeal, viz: Murphy vs. Dwire. This was an appeal from the decision of James Cousins, J.P., of Enterprise. The appeal was sustained.—W. S. Herrington for appellant. H. M. Deroche for respondent. The following county constables have been appointed since the last sessions—James Youmans, Denbigh; Wm. Salmons, Denbigh; Joseph C. Sutton, Yarker. The Grand Jury brought in the following report:

Court House, Napanee, Dec. 13, 1892. We, the Grand Jury, congratulate your Honor Judge Wilkinson in the enjoyment of such good health, and also of the absence of crime in the counties of Lennox and Addington at this court of general sessions. May such a state of affairs long reign throughout our united counties. We have also visited the jail and found everything neat and comfortable with the exception of the closets, which we understand in time there will be a drain in proximity. We recommend connection of drainage with said drain and also a closet for the general use of the court house, to be built in the near future. We found confined in the jail five prisoners, four of whom are vagrants, and one for violation of liquor law. We would recommend the removal of one of the vagrants to the General Hospital, Kingston, as he is suffering from ulcers on both legs, for better treatment.

Dates Back for a Thousand Years.

"Dear little Isle of Man," Eilan Vannin Veg Veen, is the fond title by its natives of one of the most diminutive and interesting island countries to be found in the civilized world.

It is a sturdy little bit of seagirt land, set in the turbulent Irish Sea almost equidistant from England, Ireland and Scotland, forever withstanding the fiercest of ocean currents and the wildest of ocean storms. The tiny little nation inhabiting it has as ceaseless a defiance to the maelstroms of conflicting interests of men and governments seeking its thrall, and from almost prehistoric time has preserved so remarkable a national independence, that to this day it comprises practically the only folk on British soil who enjoy the full benefits of self-government.

The island is divided into ten electoral districts, comprising King Orry's original six shreds of Glanfabla, Middle, Rushen, Ayre, Gariff and Michael, each of which returns three representatives the city of Douglas with three, and the towns of Ramsey, Peel and Castletown, the ancient capital of Man, with one each. These twenty-four representatives constitute the House of Keys, corresponding to our House of Representatives at Washington.

There is an upper house, called the Council, whose powers are similar to those of our Senate. It is composed of the lord bishop of the diocese ("Sodor and Man"), who has a seat but no vote, in the British House of Peers; the attorney general, the receiver general, the two deemsters or judges whose offices, almost a relic of Druidism, are precisely as constituted by the Norse King Orry; the clerk of the rolls, the water bailiff, the archdeacon and vicar general, over which the lieutenant governor, a Crown appointment, presides.

The deemsters or judges, who have authority to determine all causes, subject to appeal to the government staff, are still required to take the same curious oath as when the ancient "Breast Laws," those not reduced to writing until 1417 and orally handed down from one deemster to his successor, prevailed. They swear "by this Book, and by the holy contents thereof, and by the wonderful works that God hath miraculously wrought in heaven above, and in the earth beneath in six days and seven nights * * * without request of favor or friendship, love or gain, consanguinity or affinity, envy or malice, to execute the law of this isle, justly betwixt our sovereign lord (or lady) the King (or Queen) and his (or her) subjects within this isle, and betwixt party and party, as indifferently as the herring's backbone doth lie in the midst of the fish."

Members of the House of Keys are elected for seven years. The Governor may at any time dissolve the House, in case of permanent opposition to the Council, when, as in England, "an appeal to the country" is taken. Council and Keys vote separately. Concurrent majorities of each are required to pass measures, and these measures, which did not formerly go into operation until promulgated from Tynwald Hill, now go into effect on receiving royal assent, which is seldom denied; as these clever patriarchal folk keep a well conditioned lobby in attendance on the House of Peers at Westminster.

All Manx laws are called Acts of Tynwald, and the Tynwald court may still, as a thousand years ago, be held at any time in special session at Tynwald Hill, but must as then convene yearly for the promulgation of the laws, though, legally, they may have already gone into effect. This ceremonial law has now become a national holiday, called Tynwald day. It is held on the 5th of July, or on the 6th, if the 5th happens to fall on Sunday. Undoubtedly 40,000 of the 50,000 inhabitants of Man are unfaithful in attendance, and the ceremony always attracts thousands from Lancashire, Cheshire and Cumberland in England.

The Tynwald Hill is situated just west of the center of the island between the cities of Douglas and Peel, and lies in the romantic pass between the Cairn and Greeba mountains. Traditionally it is said to have been formed of earth brought here in caris and creels from every parish of the island.

Two hundred yards from the Hill, called in Manx Cronk-y-Keillown, or St. John's Church Hill, is the imposing church of St. John, the gift of the crown to the island. It is a splendid edifice in the Early Decorated style, built of South Barre granite. It was erected in 1847 on the site of a former church built in 1699, which was itself preceded by a temple to Thor. At the southwest corner of the present edifice, is a strange Runic monument quite 1,000 years old, with an almost illegible inscription, signifying that "Inocurir engraved these Runes;" and the level land round about is

officials and church dignitaries of the island during the promulgation of the laws. "Until quite recent times the entire text was read both in the English and the Manx languages; but now only the titles and side notes are read aloud. A huge canopy shelters the mount, held in place by seventeen ropes let into rings in as many stones at the bottom of the hill, or one for each parish of the island.

Proceedings are begun at 11 o'clock in the forenoon by services in the St. John's. When these are ended a stately official procession to the mount begins in the following order: Three policemen; the six corners; the captains of the seventeen parishes; the clergy; the four high bailiffs; the House of Keys; the Council; the sword bearer, carrying the sword with point upward, all followed by the Lieutenant Governor with his chaplain, surgeon to the household and the chief constables.

A THOUSAND YEAR OLD CEREMONY.

When a syllabus of the new statutes have been read by the deemster or judge of the north, the procession returns to St. John's. The two branches of the Legislature sit apart, the Council in the chancel and the Keys in the south aisle. The promulgation of the laws is attested, when the Governor, by messenger, requests the attendance of the Keys. The two bodies then sit in joint house, and a large amount of annual routine government business, such as receiving the accounts of State colleges, asylums and road funds, establishing rates for maintenance of public institutions and the appointment of committees is transacted.

Here is a ceremony more than a thousand years old. The whole of the little Manx nation is here just as in King Orry's time.
